Fiscal Year 2011 Stewardship Report

HARRISON FOUNDATION

Summer 2011

July 27, 2011

Dear Friend of Harrison:

In a time of great change we are truly inspired by your generosity in support of Harrison Medical Center. We are fortunate to have you among our loyal friends and are deeply appreciative of your commitment to the value of having great healthcare close to home.

As a donor, you are a stakeholder in Harrison's mission to make a positive difference in people's lives through exceptional health care. Your gifts play a vital role in the critical work we do to care for our community. Our ability to provide exceptional care for our patients is increasingly linked to the generous support we receive from community members like you.

Last year, you were one of 1,279 donors who contributed more than $940,000 in cash and in-kind gifts. Additionally, our volunteers (some 400 of them!) contributed 40,383 hours in volunteer time, a value of $862,580. Because of your generous support, the Foundation was able to fund several projects including our largest commitment to support caregiver education through Harrison's RN Residency Program for new nurses. Additionally, the Foundation purchased needed equipment for Home Health, ICU, Labor and Delivery, and Cardiovascular Services. And, we were able to offer ongoing support for patient programs including, Complimentary Therapies, Palliative Care, Spiritual Care, Pediatric Rehabilitation, SANE, and the HOPE Bereavement Program. These are just a few examples of how your support makes a difference.

Providing our community with healthcare has never been more important. Today, hospitals are grappling with the realities of declining payment for services, the need to continually invest in facilities and technology, all the while trying to care for the escalating needs of an aging population. To provide exceptional healthcare, we need the support of the communities we serve. Patients' fees cover essential services, but frankly fall short of providing all the resources needed to advance our capabilities to serve our community at the highest possible level. Through the Foundation, every gift — large and small — is pooled and targeted to have a meaningful impact on patient care. These gifts go straight to the "bottom line" and are valuable indeed.

Never doubt that *every donor makes a difference* and *every gift matters*.

With gratitude,

Stephanie Cline
Executive Director

HARRISON MEDICAL CENTER FOUNDATION
