# TREES OF LIFE

*a Celebration of Life*

With each life celebrated, so our trees grow – leaf by leaf; life by life. By participating in the Trees of Life, you can celebrate a life in your own family while also helping to enhance the health of children in our community through Harrison Medical Center.

An original work of art by Sanford Werfel, the three hand-carved trees are made of solid hardwood and represent the lush evergreen trees that surround the Harrison Silverdale campus. On display in the lobby of the Women's and Children's Center at Harrison Silverdale, the sculpture inspires all who visit to remember to celebrate the lives of those special to us.

With each gift of $100 or more a beautiful leaf plaque will be engraved with the person's name and date of birth (optional). Those born at Harrison Medical Center will be brass and those born elsewhere will be copper.

Celebrate the life of your newborn, children, spouse, parents, or a departed loved one – anyone whose life you choose to celebrate. Please join us and celebrate life.

If you have any questions, please contact us at 360.744.6760. Information can also be obtained on our website at www.harrisonfoundation.org.
